CALL FOR PAPERS

Aim and Objective

The objective of the symposium, to be held in Monterey, California, is to provide a forum for researchers and practitioners from industry, academia, and government involved in the area of Precision Clock Synchronization and Distributed Time-based Applications.

Symposium Topics

We welcome paper submissions on all areas of precision clock synchronization and distributed time-based applications. Example topics of interest include but are not limited to:

- Distributed applications based on synchronized clocks:
  - Application requirements studies
  - Case studies and field experience
  - Analytic, modelling, and simulation studies
  - Time-based cyber-physical systems
  - Time synchronization for robotics and control
  - Time synchronization for cloud computing infrastructure
  - IaaS Data Plane & PaaS Control/Management Plane

- Clock synchronization technology:
  - Design, usage and research concerning IEEE 1588
  - Systems with heterogeneous synchronization technologies
  - Synchronization performance test and evaluation tools
  - Analytic, modelling, and simulation studies
  - Clock system management
  - Timing security and robustness
  - Synchronization over gigabit, fiber, and wireless networks
  - Local and wide-area synchronization
  - Servo design for slave clocks
  - Device design and application support
  - Conformance testing and system integration issues
  - Time and frequency distribution
  - Work-In-Progress reports

Submission of Papers

Authors should submit a six-page original manuscript (except for Special Industry Session). Papers must follow the standard IEEE Manuscript Templates for Conference Proceedings. Submission instructions will be posted on the conference website.

http://www.ieee.org/conferences_events/conferences/publishing/templates.html

Special Industry Session

Industry Session papers will be presented as slides at the conference only. Only a one to two page abstract submission is required rather than a full paper submission. While not published in the ISPCS Proceedings, presentation slides will be posted on the ISPCS website after the conference, as they are for the full paper presentations.

Work in Progress Papers

Work in Progress (WIP) papers will be reviewed and presented in a poster session.

Important Dates

May 1, 2017
Deadline For Submission of Regular Papers

June 5, 2017
Acceptance Notice & WIP Paper Submission Deadline

July 10, 2017
Final Written Materials To Be Published In Proceedings

www.ispcs.org
